Workshop

- Break into groups of 4.

- Using yesterday’s anthology example* as a template design a markup language to describe the structure of a music collection.
  - What elements do you need to describe?
  - What is their relationship to each other?
  - What attributes should they have (if any)?

- Write an SGML DTD for your markup language.

* Available at: [https://www.scss.tcd.ie/Nina.Bresnihan/teaching/cs7026.html](https://www.scss.tcd.ie/Nina.Bresnihan/teaching/cs7026.html) and Blackboard
Workshop

- Swap your DTD with another group.

- Try and write a document in their markup language.
  - Is their structure easy to understand?
  - Is it different to yours?
