Authoring for Digital Media CS7026
Nina Bresnihan

**Brief: Week 1: Jan 15th 2018**
Work in your groups to design and develop a website for your client using valid HTML5 and CSS3.

**Notes**
*Appropriate consideration must be given to*
1. The function of your website
2. Audience Profile
3. Aesthetics / form and function
4. Structuring of content
5. Navigation
6. Digital Media
7. Delivery across different devices and browsers.

*The finished site must include the following elements and content generated by the team (any variation on this based on client requirements must be discussed with me):*
1. Text
2. Photographic images
3. Non-photographic images (logos, maps, diagrams, schematics as appropriate)
4. Video (with sound)
5. Links to External CSS
6. Social media integration

**Deliverables**
1. Week 3: Requirements and Statement of Intent. Presentation & Review Feb 1st
2. Week 4: Information Map. Presentation & Review - Feb 8th

Week 7 – Study Week

5. Week 8: Basic HTML and CSS. Presentation & Review - Mar 8th
8. Week 11: Presentation Slides. Final Presentation to class - Mar 29th

**Notes on deliverables**
- All deliverables to be emailed (Nina.Bresnihan@scss.tcd.ie) **by 1pm the day before each review**
- The individual report should be submitted via Blackboard by Apr 5th
- Each group will have one point of contact to be decided by the group
- Thursday mornings will comprise short review meetings with each team presenting their deliverable for feedback
- **All members of each group must attend each review session**
- Projects are marked by continuous assessment (based on deliverables and participation).
