This describes what I know as of 16 September 2016.
Some details might well change during the next 11 weeks.

Schedule

Plan

We will follow the book

*Learn Prolog Now*

by Patrick Blackburn, Johan Bos and Kristina Striegnitz

http://www.learnprolognow.org/

closely, covering roughly a chapter a week, using slides available at

https://www.scss.tcd.ie/Tim.Fernando/LPN/

There will be two assessed lab exercises, to be assigned at least two weeks before they are due.\(^1\) Each will be worth 5% of your final mark, leaving 90% for the exam.

Labs begin on Week 2 (Tuesday, 4 October).

An attendance sheet will go around during each lecture. Please put your initials by your name if you want your presence noted. I will use the attendance record in borderline cases (moving you up if you attend regularly).

Tim.Fernando@tcd.ie
ORI LG.17
Phone extension 3800

\(^1\)To get credit, you will need to show one of your demonstrators

Bojan Bozic, bozicb@scss.tcd.ie
David Woods, dwoods@tcd.ie

that it works during a regularly time-tabled lab session. *No* credit will be given for submissions emailed to Tim Fernando.
