CS3011 Symbolic Programming  
Michaelmas 2015

This describes what I know as of 24 September 2015. Some details might well change during the next 11 weeks.

Schedule

Monday 1-2 LTEE1 Lecture  
Tuesday 2-3 LG12 Lab  
Wednesday 10-11 LB04 Lecture

Plan

We will follow the book

Learn Prolog Now  
by Patrick Blackburn, Johan Bos and Kristina Striegnitz  
http://www.learnprolognow.org/

closely, covering roughly a chapter a week, using slides available at

https://www.scss.tcd.ie/Tim.Fernando/LPN/

There will be two assessed lab exercises, to be assigned at least two weeks before they are due. Each will be worth 5% of your final mark, leaving 90% for the exam.

Labs begin on Week 2 (Tuesday, 6 October).

An attendance sheet will go around during each lecture. Please put your initials by your name if you want your presence noted. I will use the attendance record in borderline cases (moving you up if you attend regularly).

Tim.Fernando@tcd.ie
Moving to ORI LG.17

---

1To get credit, you will need to show one of your demonstrators  
Bojan Bozic, bozicb@scss.tcd.ie  
Aonghus McGovern, amc gover@scss.tcd.ie

that it works during a regularly time-tabled lab session. No credit will be given for submissions emailed to Tim Fernando.
