VisibleThread Internship

Intern Testimonial

1. Name and dates that you completed your internship:

   Joseph Carnec – 1st February – 1st August

2. Reason for choosing the Internship with VisibleThread:

   I chose to do my internship at VisibleThread as it was an opportunity within a small and experienced engineering team, giving me the opportunity to solve real world problems and gain experience and knowledge as somebody who plans to pursue a career as a software developer.

3. Favourite aspect of the Internship:

   My favourite aspect of the internship was the fact that I was able to work on a wide range of interesting problems right from the start. I benefited greatly from the support and guidance of my friendly and experienced colleagues. While working on these problems in close collaboration with the other developers, I was able to benefit greatly from their knowledge and feedback and found that they were eager to help grow as a developer and benefit as much as possible from the internship.

4. What you feel you gained most from completing the internship:

   What I feel I gained most from completing the internship were the technical skills and how to integrate fully into the team. I was given the opportunity to gain experience with a wide range of responsibilities and technologies. Over the sixth months, I was provided the guidance to become an experienced and knowledgeable developer with respect to back-end and front-end development.
5. The biggest takeaway in learning from the internship:

My biggest takeaway from the internship was an understanding and appreciation of the different processes and responsibilities encountered as a web developer. Being a small team, working at VisibleThread was a unique opportunity to get a birds-eye view of the day to day of an engineering team, making it a unique opportunity for anybody considering web development as a career path.

6. Would you recommend VisibleThread to current students seeing internship? Why?

I would strongly recommend VisibleThread to any students who are interested in software development. VisibleThread gives you the opportunity to learn a wide range of skills related to web development. My colleagues were extremely accommodating and helpful, ensuring that I got the maximum out of six months I worked there. The internship is a great opportunity to work in a small, supportive and experienced dev team resulting in what was for me an extremely enjoyable and worthwhile experience.
