Cáin agus Custaim na hÉireann

Irish Tax and Customs

The Office of the Revenue Commissioners is the primary state body responsible for the assessment and collection of taxes and duties in the Republic of Ireland.

---

**2015 Statistics**

- Over €45 billion collected in 2015
- 5.3 million tax returns filed online
- Ireland is the easiest country to pay tax in the EU
- 1.9 million electronic payments made in 2015
- Timely compliance for large cases is over 99%

---

**PROJECTS**

**FORM 11**

- The Form 11 is the primary tax return form for personal income tax. The form changes from year to year with the change and introduction of new taxes. The online form is changed annually to comply with the change in tax law every budget.

**PROJECT SCOPE:**

- New fields and field validation
- Calculation changes for new tax rules
- User interface updates and changes
- Form prepopulation amendments
- Bug fixes

---

**INCOME TAX**

- Income tax is the largest tax head in Ireland

---

**REVENUE FILE RETRIEVAL SYSTEM**

- According to Irish tax law all paper records must be retained for a number of years before they become eligible for destruction. Despite a large increase in the number of electronic returns in recent years there are over 2 million paper files in Revenue warehouses. A system is being put in place to track file location and allow Revenue staff to store and retrieve files.

**PROJECT SCOPE:**

- Liaising with business users and developing a comprehensive design specification document
- New android application with barcode scanning capabilities
- Web application to allow Revenue employees to request to retrieve or store a file
- Web application to approve or deny requests and approve user access levels
- Merge two existing databases and develop auditing functionality
