Who are Susquehanna International Group (SIG)?
Susquehanna International Group (SIG) is a privately held global investment, trading and technology firm.

My Role in the Company
- Intern Software Developer
- Report to both a mentor and a team manager
- Develop software using agile development process
- Meet bi-weekly deadlines

My Team
- Static Data Team
  - Agile
  - 3 developers + 4 business analysts
  - Mentor – Karl O’Brien

Skills I Have Learned
Daily tutorials with my mentor as well as the projects that I work on have thought me:
- C#
- Python
- Splunk
- Perforce
- Model-View-View Model (MVVM) design pattern

Technologies Used
- C#
- Splunk
- Perforce
- Visual Studio
- Confluence
- Oracle
- JIRA

Main Project – STIG UI
- Static Tradable Instrument Guru (STIG) user interface
- C# application that is developed using the MVVM design pattern
- Interacts with databases and REST APIs
- My interaction with it is to develop new features and fix existing bugs
